## Membership

Membership entitles you to unlimited classes at some 80 locations in Australia and more than 500 locations in 27 countries worldwide.

Members are also warmly welcomed to any of our social events that are regularly organized. With our volunteer ethos, we welcome members to join in the day-to-day running of the Society, for example by helping make the Chinese tea.

Members also have access to many in-depth training workshops (ranging from 3 hours to 5 days) offered around Australia and overseas.

As we are a membership-based organization, the same level of membership dues are payable whether you attend one class per month, or many. Classes are offered as part of a membership, rather than on a fee-for-service or pay-by-the-class basis.

## What Are the Costs?

Sign up for membership and get unlimited classes. There is a once-only \$35 registration fee plus membership dues that are payable annually, half-yearly or monthly.

For new members we recommend the best value option is our 4 month introductory package, which is designed to offer genuine savings. See table below.
